Subject Contact Information for EIA (re: DM&E DSEIS)

Beth, I have a contact for you at EIA. Since your questions seem to apply to the NEMS model and the AEO 2005 reference case rather than our sensitivity analyses using NEMS, it probably makes the most sense for you to work directly with EIA. Please let me know if you have any follow-up questions.

Here's the information:

Mike Mellish
mmellish@eia.doe.gov
(202) 586-2136

I hope this helps!

Regards, Vicki Rutson
